

## Econ 101 F'22 Midterm Exam 1

**Time:** The exam will be held on Monday, Oct 3, from 6:00pm to 8:00pm. Please get to your room by 6:00pm, but don't go in. Please bring your student picture ID – **your MCard** – so we can check you in one-by-one. Also, sometimes buildings are locked and you'll need your ID to get in to the building. Other students may be taking tests in the rooms before you, so please be quiet in the halls outside the exam rooms. You will have 90 minutes to complete the exam.

**Location:** Locations are assigned by discussion section leader. Make sure you know your section leader's name and the section number for which you are registered. You must take the exam in your assigned room with your assigned section leader. These are the assigned exam rooms:

<b>Lorch 140</b>	<b>MLB 1200 (Aud 3)</b>
Mike Mei	Qian Li
Jiahao Chen	Joaquin Endara
Aneesha Parvathaneni	Toinu Reeves

Please note your section number in the chart below. This is very important so that we can get your question book back to you.

**Coverage:** The exam will cover the material up through Lecture 9 on Wednesday, Sept 28, sections on Thursday, Sept 29 and Friday, Sept 30, the corresponding readings in the textbook, Chapters 1-6, and section materials through Week 5. Note that Lecture 8 and Lecture 9 material will also be covered on Exam 2.

Section Leader	Section Number	Section Day/Time/Location
<b>Mike Mei</b>	107	F/2:30 PM/1469 MH
<b>Aneesha Parvathaneni</b>	108	Th/8:30 AM/1436 MH
	109	Th/5:30 PM/1518 NUB
<b>Jiahao Chen</b>	106	Th/10:00 AM/269 WEISER
	110	F/11:30 AM/4404 RAND
<b>Joaquin Endara</b>	101	Th/8:30 AM/1518 NUB
	103	Th/11:30 AM/2114 MLB
<b>Toinu Reeves</b>	104	F/1:00 PM/1505 NUB
	111	F/11:30 AM/B844 EH
<b>Qian Li</b>	102	Th/1:00 PM/1650 CHEM
	105	F/1:00PM/120 WH

**Review Sessions:** We are conducting Review and Q&A sessions conducted by section leaders on Saturday, Oct 1 in AH Aud A from 10am to 12noon, and Sunday, Oct 2 in AH Aud A, from 12noon to 2pm. The review sessions are recorded. Come and get questions answered. We will have lecture Zoom office hours on Sunday, Oct 2 and Monday Oct 3.

**Check In: Visit the restroom before checking in.** We will need to clear the room before we can check anyone in. Show your student ID card (MCard) and your calculator to your instructor, who will check you off the class role and give you a scantron. The scantron will have a seat assignment in the upper-right corner. If you are left-handed, please tell your instructor so they can give you a left-handed seat. Please proceed to your assigned seat. You must sit square in the chair, facing the front, not twisted to one side. Fill in your name, student ID number, and section number on the scantron. Once you've checked in, you **may not** leave the test room until after the exam has begun. If you come late, you will not be given extra time to complete your exam. Please remove ballcaps or headwear with visors.

**Format:** Please read the "Exam Instructions" page below which is a facsimile of the exam cover page. The exam will be entirely objective. We will supply scantrons on which you must record **all** your answers. The exam will begin with True-False Questions. Indicate your answers on the scantron bubble sheet. Answer A for True and B for False. The exam will also have Multiple Choice questions, each with five possible responses. Select the best answer. Each incorrect answer is worth zero points. Answers left blank are worth 1 point. A correct True-False answer is worth 2 points. A correct Multiple-Choice answer is worth 5 points.

**Materials:** Please remember to bring your student ID card (MCard). Bring number 2 (HB) pencils and a good eraser. Use a **pencil** to bubble in your responses on the scantron (a pen will not work). You may bring colored pens and pencils for figuring your work in the question book. Make sure to keep your scantron neat and clean, and erase stray marks completely. You may use a scientific or four-function calculator only. You may not bring a graphing calculator, a financial calculator, or a complex computer-like calculator that can solve equations. You may not use an iPad or other electronic device as a calculator. You may not use notes, a crib sheet, or scrap paper. You must do all your figuring on the exam booklet. Your cell phone must be put away at all times. In particular, you may not use a cell phone to keep time, or use it as a calculator. You may not share calculators. If you do not bring an appropriate calculator, you may not use one on the exam.

**Exam Procedures:** Fill in your answers on the scantron as you go; you do not get extra time after the exam to fill in your bubbles. Do not take your question book apart during the exam. Do not tear off the cover sheet. During the exam, keep your scantron answer sheet tucked under your question book to minimize visibility. You may not ask questions about the exam problems or economics during the exam. At the end of the exam, we will call time and you must stop working. Close your question book and place your scantron face down (answers down) on top of the question book. Stay seated and quiet until you are dismissed; do not talk until you are out of the room. Turn in your question book to the instructors collecting exams. The question book will be returned to you in discussion section.

**Note:** Please note your section number before the exam, so you can fill it in on the cover sheet. We will have a count-down timer during the exam. Out of equity considerations, you may not ask questions during the exam. You typically are not allowed to leave during the last 10 minutes of the exam in order to keep things quiet for people trying to finish up.

We all wish you the very best of luck on your studying and on the exam!

Form Key Version 1

Printed Name: \_\_\_\_\_

Student ID#: \_\_\_\_\_

Section #: \_\_\_\_\_

I have neither given nor received aid on this exam. Signature: \_\_\_\_\_

Instructions:

1. Use only a number 2 pencil.
2. Print your name at the top of this page where it says Name. Sign where it says Signature. Use the signature that you normally use on official documents. Print your 8-digit Student ID number and Section number on the lines provided.
3. On your Scantron answer (bubble) sheet, write in your 8-digit Student ID number in the I.D. NUMBER section (starting from the left), and blacken in the corresponding bubbles underneath.
4. Print your name in the blocks provided on your Scantron answer sheet starting from the left column and darken the corresponding bubbles underneath. Put your family name in the blocks for "Last Name", then your given name in the blocks for "First Name".
5. In the column on your Scantron answer sheet where it says FORM or KEY, **copy the number following the words "Form Key Version" from the upper-left corner of this page and blacken in the corresponding bubble.** This is essential for the machine to grade your exam properly since it is part of the code that tells the computer which answer key to use.
6. Sign the Scantron answer sheet along the line where it says YOUR SIGNATURE.
7. Record your answers to exam questions by blackening the circles on your Scantron answer sheet. For True-False questions, answer A for "True" and B for "False." For Multiple Choice questions, select the best response. Also, circle your answers in your question book so you have a record of how you answered each question.
8. Turn in both the question book and your Scantron answer sheet at the end of the exam.
9. Each incorrect answer is worth zero points. Answers left blank are worth 1 point. A correct True-False answer is worth 2 points. A correct Multiple Choice answer is worth 5 points.
10. To keep things quiet at the end of the exam for people who are finishing up, you typically will not be allowed to leave during the last 10 minutes.
11. When the exam begins, you should open the question book and PRINT your name and section number at the top of the first page.
